## OPPOSED TO ARBITRATION.

Spain May Want it But Congress Will Say No.

### CAPT. BARKER IN WASHINGTON.

Says He Has No Preliminary Report From Court—Surviving Officers of Maine Ordered North.

By Wire to THE TELEGRAM.

Washington, March 22—There is a strong feeling in congress against an international arbitration, which it is now believed Spain will request of us upon receiving the report of the United States court of inquiry. Any proposition from Spain for appointment of a neutral court of naval experts to review findings of the court of inquiry will be considered an imputation of unfair dealing on the part of American naval officers.

BARKER ARRIVES.

By Wire to THE TELEGRAM.

Washington, March 22—Capt. Barker, who left the naval court of inquiry Sunday, and whose arrival has been anxiously awaited, arrived here this morning. It is rumored that he had additional preliminary findings from court of inquiry. This Capt. Barker denies.

NEW YORK COMES NORTH.

By Wire to THE TELEGRAM.

Key West, March 22—The surviving officers of the Maine now here received their orders at noon today. They are instructed to go north. This is believed to indicate that the report of the board of inquiry will go via the Marix this afternoon. Flagship New York goes north immediately. The Iowa becomes the flagship.

THURSDAY OR FRIDAY.

Washington, March 22—McKinley says the report of the court of inquiry will be received Thursday or Friday, and sent to Congress Monday.

From Asheboro.

Correspondence Telegram.

Asheboro, Mar. 22—Superior court is in session.

Col. J. T. Morehead and John A. Barringer, of Greensboro, are attending court.

We notice the Telegram being read inside the bar, by prominent lawyers. The horse trader and pie vender are much in evidence on our streets.

Judge McIver is bearing down with terrific force on whiskey and whiskey dealers.

Mrs. Mary Cartland, president of the State W. C. T. U., will lecture here Saturday and Sunday.

It is reported that steps will be taken soon to build a new Methodist church here. The present one is inadequate to meet the requirements of the large congregation.

Asheboro will be connected at an early day with towns on the river by telephone. We hope soon to be in communication with Greensboro.

It is to be regretted that the Guilford Lumber Company will move their plant to Troy. It has been for many years the leading business institution of the town. Their object in moving is to get to a more accessible point for lumber.

Tom Watson Won't Run.

A press dispatch from Augusta, states that Tom Watson has positively declined to accept the nomination forced upon him. The other Populist candidates have also declined to run.

Names of the New Ships.

Washington, March 21—Secretary Long issued an order today that the Amazonas, the cruiser recently purchased at New Castle-On-Tyne, from the Brazilian government, hereafter shall bear the name of New Orleans, in honor of the principal city of Louisiana. The cruiser Abouail has been renamed the Albany, in honor of the capital of the Empire State.

A 300-Loom Mill For Rockingham.

Mr. W. I. Everett, president of the Great Falls Manufacturing Company, of Rockingham, N. C., writes the Manufacturers' Record, that the Pee Dee Manufacturing Co., of Rockingham, N. C., decided at a meeting held March 15th, to build another mill. The new addition will be known as No. 2 mill, and its equipment will include 300 looms for producing plaids, shifting and warps. Steam power will be commenced at once. The company's present mill has 300 looms, 6,544 spindles, twenty-three cards, etc., in operation.—News-Observer.

On His Last Journey.

By Cable to THE TELEGRAM.

London, Mar. 22—Gladstone started from Burnmouth for Howarden this morning, on what is supposed to be his last journey. Large crowds assembled to see him off. As the train was leaving he said, "God bless you all, this place, and the land you love."

Members of his family refuse to discuss the report that he was suffering from a cancer on his nose. The report is universally believed.

LOOKED FOR DEATH FOUR YEARS.

Inventor Catterson Had His Grave Dug and Monument Erected.

Atlantic City, N. J., Mar. 20—James H. Catterson, for many years one of the most eccentric characters in the city, died here today. He had been in delicate health for a long time, and momentarily expecting his own death, he had all preparations made for his interment. About four years ago he purchased a burial lot at Pleasantville, where he had a grave dug and a fine monument erected to himself, with his name and date of birth carved, a space being left for his age and date of death. He also had an undertaker previously engaged to take care of his remains. Catterson was an inventor, and invented a machine for the improved manufacture of playing cards. From this he received an annuity of \$3500 as long as he lived. He was 60 years old.

GOOD ROADS.

Guilford People Have Been Traveling Bad Ones Long Enough.

We hope that at their next meeting the county commissioners will give the matter of purchasing a rock crushing outfit a thorough investigation.

The people of Guilford county have been traveling over bad roads, through deep mud during the winter months, day after day, month after month, year after year, generation after generation, almost century after century. It does seem that after over a hundred years experience with conditions of this sort, some relief might be furnished. If a start is not made the desired end will never be reached.

The thinking people of the county are unquestionably in favor of a decided movement in this direction.

Good roads have never failed to be a good investment wherever tried, and there is no reason why Guilford should be an exception.

We would say to the honorable county commissioners: "Where there is a will, there is a way."

## REPORT TO BE SENT TODAY

The Decision of the Court Still a Matter of Surmise.

### SICARD'S SIGNIFICANT REMARKS

"Case of Maine Most Peculiar in History of World"—President to Recognize Cuban Independence.

By Wire to THE TELEGRAM.

Key West, March 22—Court of Inquiry finished work today. Sicard pointed out some necessary alterations. Report will probably be taken to Washington today by the Marix. There may possibly be some more delay. Decision of court still a matter of surmise. Significance is attached to a remark made by Sicard: "The case of the Maine is most peculiar, perhaps the most peculiar which has ever occurred in the history of the world." From this it is judged that findings of the court do not solve mystery of explosion. Whether report is forwarded today or not, the court will remain in existence subject to call of Sicard.

WILL RECOGNIZE CUBA.

By Wire to THE TELEGRAM.

Washington, March 22—Conferences which were held in white house yesterday, when President McKinley met Reed and other leaders of both houses of congress, are recognized as having been of utmost importance. No doubt the object of these meetings were to arrange the program for the guidance of congress after the submission of the report of the board of inquiry. Whatever the president may wish one thing is certain, he has made up his mind to recognize the independence of Cuba.

The Orchestra Concert.

The musical forces of Greensboro will be combined at the orchestra concert Friday night. The orchestra, under Prof. Brockmann's direction, will number twenty or more players.

Dr. Wheeler is getting up the vocal music and will have a quartette of ladies voices and also a male quartette, besides which there will be numerous solos, violin, voice, flute, cornet, &c.

The Brockmann Orchestra is no longer a school organization, but is regularly organized by the leading players of small instruments, Prof. Brockmann consenting to train and direct them.

You are invited to come to this concert and to pay your own price of admission. No pains will be spared to make it attractive, and when the Aldermans, Woodroffes, and Brockmanns join forces there is sure to be some good music.

Tickets free at Wharton Bros. after today.

Thirty Thousand Toward the Cruiser.

Havana, March 20—The gala performance held last night at the Tacon Theatre to raise funds to buy a new cruiser produced \$30,000. The house was packed with an enthusiastic and patriotic audience. Great precautions were taken to preserve order.

Juan de Dios Romero, a captain of the insurgent army under General Perico Delgado, was caught last night by the police at Jesus del Monte, Havana city. Papers were found on him which prove that he came on a commission to Havana from the insurgents.

La Union Constitutional renews, this morning, its fierce attacks on the American correspondents now in Havana.

Telephone to Goldsboro.

On next Thursday Raleigh and Goldsboro will be in telephonic communication. The line is even now complete, all except stringing the wire from Pine Level to Goldsboro. Poles are in place and the wire will be put up this week. Mr. Will Wynne, of this city, is president of this company. About a year ago it was built from here to Selma, then to Smithfield and Pine Level. It has furnished a most excellent service.—News-Observer.

"Yes, my wife is a New York woman. It's none of the public's business, though. She is well connected there and she has married a prizefighter. That is all there is in the secrecy about her maiden name."

Imagine the horrid plight of the luckless poet whose insides are being simultaneously clawed by a spring lyric and a war song!

The press-gag bill of New York has gone to the limbo fitted for fool measures. It was as jaundiced as the sheets at which it was aimed.

At any rate if old Sol keeps up his present score, the Bostonians cannot go home and say sarcastic things in a wheezy voice about the Sunny South.

With beautiful forebearance Spain has not as yet diplomatically requested that the coast defence guns at Sandy Hook be spiked and turned the other way.

Professional politicians are likely to regard with some contempt Mr. Wanamaker's effort to introduce Sunday school methods into Pennsylvania politics.

Blood may be thicker than water, but the reception accorded the annexation scheme of Americans in Hawaii shows that even blood becomes tolerably thin when diluted with two thousand miles of ocean water.

The case of Gen. Fitzhugh Lee shows that a man who unflinchingly does his duty as he sees it under one set of circumstances can generally be depended upon to do it under very widely different circumstances.

Ohio wants a battleship named after her. Is there anything Ohio does not want? She is rapidly bringing herself to the same picture of blushing modesty that has rendered the recent history of New York roseate.

The protestation of friendship between the United States and England seem just at present to be uttered in a voice somewhat louder than is absolutely necessary between friends who understand each other so thoroughly.

Those gentlemen who are now seeing visions of tow-linen and straw hats will, in the course of a few weeks, realize on said dreams in the shape of mustard plasters and heavy overcoats.

An exchange gives considerable prominence to the paragraphic statement that better feeling prevails abroad. But in the final windup it will be the feeling here at home that will supply the scare heads for some time to come.

Uncle Sam's deliberation and delay may be partially due to a reluctance to have Cuba weep tears of gratitude down his collar when he has thrashed the Don or compell him to play the undignified part of defendant in a breach of promise suit.

Spain and the United States are the chief producers of copper.—Philadelphia Record.

All very true. They are the chief producers of copper, but not chiefly producers of copper. The main crops just at present are jingoes, wind-jammers and "diplomats."

The offer of \$2,500 by a Wall street man for an inkling in advance as to the nature of the verdict of the court of inquiry shows how even a shrewd financier may let slip an opportunity. He could have obtained all he wanted by investing a penny in a lemon hued extra.

The time is near at hand when the people will be called upon to distinguish between patriots and party-ists. Too many people, when hearing the jingle of money in the public treasury, think it is their country calling them to take some office, just as some people think the jingle of the money in the collection plate is the voice of God calling to them to preach the gospel. Make good use of your ear-trumpet when you seem to hear your country call. It may be some other noise.—Progressive Farmer.

The distinction between patriots and party-ists is plain and easy. Nobody can fail to grasp it. The patriots are all to be found within the lines of the populist party. The party-ists dwell in another fold. Those patriots who hold office are doing so under the most violent protest. They just naturally took to their heels when they heard the "jingle of money in the public treasury." But the other patriots, knowing that worth is ever modest and retiring, gave chase, laid constraining hands upon them and elevated them to place and power. You need no ear trumpet to distinguish a patriot. He will supply all the ear business that is necessary.

Five tramps organized a meeting in a box car in a suburb of that city and after animated discussion, dotted with patriotic declamations, resolved with one accord to offer their services as soldiers in the event of war with Spain, and, further, to endeavor to get all tramps in the country to do likewise. In a public school of Olympia, Washington, where pupils are asked occasionally for impromptu poetical recitations, one reluctant boy recently ordered to show his ability at rhyming for the benefit of the School Board's visitors astounded all present, and secured punishment for himself later by declaiming:

## Worms from the Clouds.

Hazleton, Pa., March 20.—A severe thunder shower visited this city between 3 and 4 o'clock this morning, and when residents arose from their slumbers they found the streets in some sections literally covered with worms that had come down with the torrents of rain. So dense was the wriggling mass in some places that it was necessary to remove the worms with brooms and shovels before early church-goers would traverse the streets thus affected.

It seemed to develop into a case of consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

With these lithographs are announcements of games to be played here with Augusta, the 24th, and Richmond, the 29th. These games begin at 3:30. Admission 25c. Ladies free.

Mrs. Jane Hopkins, after another season of hard work has, from her fertile brain, produced some of the most beautiful patterns in boys clothing ever offered to the trade, and added to the style is her excellent work and splendid material, which makes her brand the best to be had. These goods are advertised today by Matthews, Chisholm & Stroud and handled in this city exclusively by them.

#### Doings of the Bostons.

Tenny, the absent first baseman of the Bostons, was heard from last night. He wrote that he would join the team here Saturday.

Manager Selce expresses himself as very much pleased with Greensboro and that he prefers this town to Savannah, where the team practiced last season.

The ball players put in another day of good practice at the grounds.

#### Prof. Joyner "In Memoriam."

The West Market street church Epworth League and many of its friends were afforded on last evening the rare pleasure of hearing Prof. J. Y. Joyner, of the Normal, read extracts from Tennyson's "In Memoriam."

Prof. Joyner has won for himself an enviable reputation as a reader and master of English literature and for more than an hour last night he charmed the large audience with his reading and interpretation of Tennyson's masterpiece.

#### Bostons to Play Winston.

Superintendent F. W. McClelland, of the Winston-Salem Railway and Electric Co., came down this morning and made an engagement for the Bostons to play a game of ball with a local team in the Twin-City next Saturday. Winston-Salem has some very good talent for this sport and no doubt a very interesting contest will result.

### WILL BE REPRODUCED HERE.

#### The New Congressional Library Coming to Greensboro.

Although congress will not permit the new congressional library to be moved to Greensboro, Miss Endora D. Jones, of Washington, has decided you shall see the most beautiful part of it reproduced here.

Next Thursday evening she will deliver in the court house her splendid lecture on the mural paintings in the new congressional library.

The lecture will be illustrated by 100 excellent stereopticon views of the most representative of those magnificent decorations.

This library is the largest library building in the world. It is the first building erected by the United States government, in which paintings and sculpture have been as freely used as in the great buildings of the old world. It is, indeed, a gallery of American contemporary art.

To hear this lecture and to see these views will be better, in some respects, than to see the paintings on the walls. You should not miss this opportunity.

Tickets on sale at Ward's drugstore and Wharton Bros. bookstore at 25c. for any part of the house. Special rates will be given pupils of the city schools, and all who apply will be supplied with tickets at the courthouse on night of lecture. It is hoped each school will be represented by a large body of scholars.

#### Artillerymen Going North.

The war department seems to be changing its tactics somewhat in the distribution of troops for the coast defense purposes. Hitherto the transportation of troops has been southward. Last night, however, two batteries of artillery passed through on the north bound vestibule. They were being transferred from Key West to Fort McKenzie, near Baltimore. This arrangement may be in accordance with the plan to divide the navy into three squadrons.

#### Back from the Reformatory.

Richard Potilla, the colored boy who was sent from here to the reform school at Washington, D. C., by Judge Adams, about six months ago, returned home this morning.

Richard is about thirteen years old and was sent up for stealing a watch from one Lou Shaw. He says he likes the reform school very well and did not know he was coming home until he had been dressed in new clothes "from head to foot."

When asked what he would do now he said: "Think I'll try to 'have myself now."

Since the above was put in type we learn that the boy was bound over to court and was bonded by his father who sent him to the reformatory. He was discharged on account of some difficulty in which he was involved there. An officer of the reformatory passed through Greensboro this morning, bringing Richard with him and turned him over to Officer Weatherly who put him in jail for safe keeping until the next term of court.

### The Hardware News.

PUBLISHED BY ODELL HARDWARE CO.

#### ANNOUNCEMENT.

The Hardware News is published in order that the good people of Greensboro and vicinity may be informed concerning goods in our stock which should interest them. All Telegram readers will receive The News daily, free of charge.

#### EDITORIAL.

The bicycle is no longer a fad, but a substantial necessity to the business man and every man who values his time and his health. See our advertising columns for information concerning the best wheel.

Every one looks anxiously for the war news. Will there be war or will there not be, and if there should be, will goods "go up" to "war prices?" We don't know but we have a large stock of everything the housekeeper, farmer and merchant need, so we, as well as Uncle Sam, are prepared for war.

"What's all that racket going on over there?" asked the new arrival in Oklahoma.

"Hangin' a man for stealin' a wheel" replied the old resident. "Isn't that a pretty severe punishment for a slight offense?" "Slight? Why, stranger, it was a '98 model." (Must have been a Crawford.)

#### ADVERTISEMENTS.

#### The Third Year of The Crawford

in Greensboro is upon us. Investigate its record. Ask the riders, more numerous than those of any other wheel of its grade.

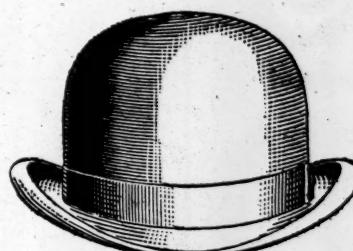

#### Have You Seen The Tribune?

It is not a new wheel, but this is the first season it has been in our stock. You just ought to see the wheel spin around.

#### Cheap Enough: The Crawford at \$50.

But we have Crawfords even cheaper, of the highest grade, though not quite up to the '98 model in beauty of design.
